I, Irvin E. Branch, am an attorney at Townsend and Townsend and Crew LLP ("TTC"), representing First Data Corporation ("First Data") in the above-referenced patent application. I have made diligent efforts to obtain a signed declaration from Charles Whitaker, an inventor (previously an employee of First Data) for the above-referenced case. Mr. Whitaker's last known address is 5104 N. 139th Street, Omaha, NE 68164.

On September 29, 2003, I filed the above-referenced application.

On December 30, 2003, we received the Notice to File Missing Parts from the U.S. Patent Office (mailed on December 24, 2003).

I prepared an Inventor Declaration and Inventor Assignment for execution by each inventor and mailed the documents, along with a copy of the application as filed, to Charles

Whitaker at his last known address on January 8, 2004. A copy of the letter is attached as Exhibit A.

On February 27, 2004 (at my direction) another letter was sent to Mr. Whitaker's last known address forwarding another Inventor Declaration and Inventor Assignment. A copy of this letter is attached as Exhibit B.

I made two attempts to contact Mr. Whitaker via telephone. A message I left was not returned. Others called at my direction and also left messages that were not returned.

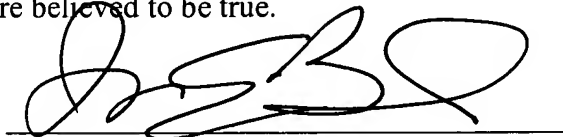

Bradley Winking, Scott Dunn and Jim Jackson, joint inventors, executed and returned their Inventor Declarations and Inventor Assignments.

As of this date, we have not received a signed Declaration from Charles Whitaker.

The undersigned, being hereby warned that willful false statements and the like so made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the patent application or any patent resulting therefrom, declare that I am authorized to execute this instrument on behalf of applicants; all statements made of my own knowledge are true; and all statements made on information and belief are believed to be true.
